

The Dual Master Degree Program with Sapienza University

You can complete your second Master's degree at Sapienza University di Roma, a leading institution for the study of mechanical and industrial engineering in Italy. .

The dual degree is organized as follows:

- Fall and Spring is spent at GT Lorraine, where you will take 8 courses (24 credit hours). Application to the Master program is complete over the Spring semester.
- On a case by case basis, you may intern in industry (depending on available opportunities and profiles)
- In the following Fall term, join Sapienza campus to complete your Master's degree and, transfer 2 of those courses to GT to complete your MSME requirement. The European Master's degree courses are offered in English.
