

DUPL CRSE WITH SEC-XXXXX

Error Explanation:

If you are trying to take 2 courses with the same subject code and course number, you will get an error. OSCAR will only allow students to have one subject/course in their schedule. OSCAR looks at subject code (i.e. MATH, ENGL, etc.) and course number (2501, 1502, etc.), but not the section number.

Special topics often have the same course number, with different section numbers. The ME department offers several special topics classes, each with the same number. This is the reason why different classes have the same subject codes and course numbers.

Solution:

- If you are trying to change your section, you must drop your original section and add the new section. Example: If you have Math 1501 A in your schedule, you cannot change your section to Math 1501 B until you drop Math 1501 A.
- If you are trying to take two different classes which have the same number (ex. ME 4803 A and ME 4803 B), you must request a duplicate course permit override from the department offering the courses.

Look-Up Classes to Add:

 To register for classes, check the box in front of the CRN and click Register or Add to Worksheet. Both of these buttons are located in the column where you can continue with the registration process.

The letter "C" to the left of a class means that the class is closed. **Courses numbers are the same, but Sec (sections) are different.** Because you do not meet the restrictions on the course OR your time to register has run out at this time. If you do not have a valid time ticket, you will not be able to add classes using this system.

The column labeled "BAS" is the basis (grade mode) of the course. "A" = audit, "L" = letter grade, and "P" = pass/fail. **Class Titles** Click the CRN of the course to see pre-requisites, linked lab information, etc.

Registration will close at the time indicated on your time ticket. Once registration closes, you cannot add hours, change hours for a variable hour course, sign up for an internship, or drop a course, and any dropped courses will be dropped.
